Petition to the Premier

WHEREAS our Government has committed in law to protecting 20% of Nova Scotia's lands and waters by 2030 but is continuing to permit logging of old forests of high conservation value on Crown land,

THEREFORE we, the undersigned residents of Nova Scotia, call upon the Premier to pause all harvesting and roadbuilding activities in forests over 80 years old on Crown land in Halifax County until such time as 20% of Nova Scotia's lands have been permanently protected.
